Beth Robertson
Director of Student Support Services
Bedford County Public Schools
586-1045 ext 10230

Bedford County Public Schools has set aside at least one, often two day(s) per month for students to have extended learning opportunities with an adjusted schedule. These dates will include time meeting with Learning Coaches for college and career planning activities, club meetings and school assemblies.

Several school leaders have reached out to see if there are recommendations of individuals or organizations that would be recommended for speaking in school assemblies. Of course, topics relating to bullying prevention, suicide prevention, substance abuse prevention are always common requests but additional requested topics were related to building emotional resilience, growth mindset and goal-setting and understanding the power of habit. If anyone has any recommendations that I could pass on to school organizers, please let Beth Robertson know.
