The Young Adult Survey for young adults who are 18 to 25 years old can be accessed through the link in the image below. Please share this information with friends, family, and colleagues regarding the Virginia Young Adult Survey.

To complete this survey, you need to be between 18-25 years old, not have taken this in the past year, and you must be a Virginia resident OR live in Virginia most of the year (e.g., attend a college in the state). Results from this survey will be used to support important substance use and other prevention programming and efforts across the state. We very much appreciate your help!

**Are you
18-25 years old,
living in Virginia?**

**Take the Virginia Young Adult
Survey!**

We want to hear about your experiences and opinions on substance use and mental health in your community. This data will help us develop health and wellness programming that better meets your needs.

**Text Virginia to
855-632-2201
for the survey link!**

Participate and contribute to your community's health. An incentive may be available.
